

Please do NOT expand Low Power FM broadcasting! I have listened to 106.7 FM (K-LOVE) for the past 3 years and 88.7? in Wilmington, NC before that. K-Love has been a wonderful source for Christian events happening around Greensboro. It is also great way for me to feel connected to my sister who listens to K-Love in Arkansas. K-Love has also been a source of comfort to me this past year as I have been battling cancer and have had many a sleepless/pain-filled night. I do not know how I would get through those nights without K-Love. Please do not allow anything to interfere with the K-Love signal!! Thank you for your help in allowing the K-Love signal (106.7) stay on the air 24/7!
